GRACE Aerospace was founded over 23 years ago by former Northrop Grumman Engineers, Program and Operations managers, bringing together years of industry experience and know-how. GRACE Aerospace is a full-service build to print electrical and structural manufacturer and integrator with the following core competencies:

- Cable Assemblies, Wiring Harnesses (Electrical)
- Sheet Metal Fabrication & CNC Machining 3, 4 and 5 axis machining (Structural)
- Electromechanical Assemblies (Integration)
- Laser Marking, Wire Marking & Laser Engraving
- Test Capabilities: AS9102, FAI, FAT, PLT, High Voltage Automated Tester (Cirris)
- FARO Arm with Verisurf software – for complex geometry and MBD verification
- Engineering support services and rapid prototyping
- Assists with sustainability of aircraft by resolving obsolescence issues
- Finish capabilities: Paint {in-house paint booth}, Prime, Alodine

What sets GRACE apart from the rest is our ability to provide turnkey solutions to our customers from liaison engineering, obsolescence resolution to electrical and structural manufacturing and systems integration. Customers have relied on GRACE Aerospace for our high-quality products and on time delivery for over two decades. GRACE Aerospace maintains 100% quality and 100% on-time delivery with customers.

## PAST PERFORMANCE

- ✚ Fabricated and finished thousands of structural components and assemblies in support of the US Navy's aircraft mission systems upgrades and other legacy aircraft.
- ✚ Manufactured and tested complex power signal and RF cable assemblies and wiring systems for the government to include Main Landing Gear, Fuel Quantity Indicating System and Ethernet cables.
- ✚ Integrated boxes, panels, avionics cockpit controls, and electro-mechanical assemblies for flight and ground support.
- ✚ Performed complete systems integration for complex multi-bay rack systems to include fabrication, finish, and assembly, wiring systems fabrication and installation, integration, and test. GRACE Aerospace continues to support various aircraft platforms including, but not limited to the following:

- |                      |          |                   |
|----------------------|----------|-------------------|
| ▪ P3/EP-3            | ▪ F-15   | ▪ SLAM/ER_Harpoon |
| ▪ P8                 | ▪ F-16   | ▪ MQ-25           |
| ▪ E2C/E2D            | ▪ F/A-18 | ▪ KC-46           |
| ▪ F-5 -Block upgrade | ▪ T-45   |                   |
